LIMITATIONS AND EXCLUSIONS OF THE HOME INSPECTION AND REPORT

CLIENT AND COMPANY (Company is also defined to include any and all inspectors who perform the contracted-for inspections as an employee or independent contractor of the Company) agree to the following terms and conditions:

1. **Client Attendance and Permission to Access Subject Property:** The Client acknowledges that Client and/or any authorized representative has been encouraged to attend and participate in the inspection and recognizes that failure to do so may result in less than a complete understanding of the findings. The Client further acknowledges that such participation is at the Client's own risk. The Client warrants that permission has been secured for the Company to enter and inspect the Subject Property.

2. **Standards of Practice:** The Company agrees to perform a limited visual inspection of the systems and components included in the inspection as they exist at the time of the inspection and for which a fee has been agreed upon. Home Inspectors, including the Company, are governed by the rules in the New Jersey Administrative Code contained at *N.J.A.C. §13:40-15* and the Company and its inspector(s) shall comply with these rules. Failure to comply with these rules may subject the Company and its inspector(s) to discipline. The inspection is limited by the exceptions and exclusions as contained in the Standards of Practice, *N.J.A.C. §13:40-15.16*, and this Pre-Inspection Agreement.

3. **Definitions and Purpose of the Inspection:** Home inspection means a limited visual, functional, non-invasive inspection, conducted for a fee or any other consideration, and performed without moving personal property, furniture, equipment, plants, soil, snow, ice or debris, using the mandatory equipment and including the preparation of a home inspection report of the accessible elements of the following systems and components of a residential building: structural; exterior; roofing; plumbing; electrical; heating; cooling; interior; insulation; and ventilation, fireplaces and solid fuel burning appliances, as described more fully in *N.J.A.C. §13:40-15.16(c)*, but excluding recreational facilities and outbuildings other than garages or carports. The purpose of the home inspection is to identify and report on material defects found in those systems and components. A **material defect** is a condition, or functional aspect, of a structural component or system that is readily ascertainable during a home inspection that substantially affects the value, habitability or safety of the dwelling, but does not include decorative, stylistic, cosmetic, or aesthetic aspects of the system, structure or component. **Accessible** means available for visual inspection without requiring the moving of personal property, dismantling, destructive measures, or any action which will likely involve risk to persons or property.

4. **Inspection Report:** The company will **NOT** process the report until payment has been received. The Client and the Company agree that the Company, and its inspector(s), will prepare a written home inspection report which shall:

(A) disclose those systems and components which are/were designated for inspection pursuant to *N.J.A.C. §13:40-15.16* and are/were present in the Subject Property at the time of the inspection, as well as those systems and components which are/were present at the time of the inspection but are/were not inspected and the reason(s) they were not inspected; (B) describe the systems and components as defined in *N.J.A.C. §13:40-15.16*; (C) state and identify what material defects were found in the previously described systems and components; (D) state the significance of the findings; and (E) provide recommendations regarding the need to repair, replace and/or monitor a system and/or component, or obtain examination and analysis by a qualified professional, tradesperson and/or service technician; (F) the home inspection report belongs only to the client named in the report.
